the last previous offering direct to shareholders met with indifferent success, and traders in view of this fact interpreted to-day's offering as a bearish factor and sold the stock.

Missouri Pacific, which broke with Pennsylvania, rallied before the close, and ended the day with a slight gain. More than 100,000 shares of this stock have been sold in the last fortnight, and the source of the liquidation remains a puzzle. The February report of the road shows that while gross earnings fell off \$177,000, the shrinkage in net was kept down to \$\$5,000, by reason of reduction of operating expenses.

COTTON MARKETS.

New York April 12—The cotton market was less active to-day, and business seemed to be largely in the way of evening up with an early decline followed by a partial rally The close was steady at a net loss of 1 to 16 points. The opening was steady at an advance of one point on October, but gonerally 1 to 4 points lower under overnight selling orders. The cables were a shade better; and with reviews or the dry goods market rather more encouraging, prices railled right after the call with July catton selling at 14.55 on covering and a little fresh buying. But Liverpool weakened shortly after the local opening, and prices here soon turned easier under renewed liquidation with July weakening in the afternoon about 9 points net lower.
